

Call for abstract

Submission deadline
July 30, 2025

Accepted abstracts
are expected to be
developed into full
papers. Notification of
acceptance: by **October
30, 2025**.

Mobility and Transport Solutions for Societal Challenges

Policies, Innovation,
and Business Models

October 15-16, 2026

Venice International University (VIU)
San Servolo Island – Venice

Abstract submission and related
information here:

www.unive.it/motusconference

Contacts: **motusconference@unive.it**

The conference will focus on policies, innovative solutions, and business models that address societal challenges in mobility and transport. Researchers are invited to contribute with their work and engage in a constructive dialogue on the future of the sector.

We welcome submissions related to **three primary topics**

POLICIES

- Accessibility for social inclusion and cohesion
- Active mobility
- First- and last-mile interconnectivity
- Gender sensitive mobility
- Smart working and mobility
- Individual behaviours and soft measures
- Carbon footprint reduction
- Multimodal transport integration and accessibility
- Public perception of mobility transitions
- Urban infrastructures for sustainable mobility solutions

INNOVATION

- 15-minute cities: determinants, feasibility and implementation process
- AI and machine learning in mobility planning and management
- Avoid-Shift-Improve: theory and practice
- Big data and open data management in smart mobility
- Energy efficiency in transport and mobility
- Geo-spatial data for mobility management and planning
- Micro-mobility: a viable solution?

BUSINESS MODELS

- Autonomous vehicles business ecosystems
- Corporate mobility management
- Digital ticketing and payment systems
- First-last mile business opportunities
- MaaS, ride-sharing, and mobility on demand: state of the art
- Public-private partnerships for innovative business model
- Recharging and/or battery swap: challenges and opportunities
