

Szczecin, November 27, 2025

Institute of Management at the University of Szczecin,

Institute of Infrastructure, Transport and Mobility at the SGH Warsaw School of Economics,

and Faculty of Economics at the University of Gdańsk

are pleased to announce the 22nd edition of **the International Scientific Conference EURO-TRANS**, which will take place **in Szczecin on September 21–22, 2026**, under the theme **“Innovative Transport System. Efficiency, Safety and Security”**.

The **EURO-TRANS** Conference is a prestigious academic event. It was launched in 2001 by the community of transport economists at the University of Szczecin. Since 2002, the Institute of Infrastructure, Transport and Mobility at the SGH Warsaw School of Economics has served as a co-organizer, and in 2021 the Faculty of Economics at the University of Gdańsk joined the organizing team. The conference partner is The European Platform of Transport Sciences, which brings together universities and scientific transport associations from 18 European countries.

This year's edition will provide an opportunity to exchange views on the shape of a modern transport system across various dimensions and spatial scales, as well as to assess innovative solutions in terms of their efficiency and their impact on the protection and safety of mobility. The expected participation of representatives from academia, policymaking, and the transport industry will create a valuable platform for the exchange of knowledge and ideas in this highly relevant field of scientific research and transport policy. Particularly important will be discussions on the role of innovative transport solutions in the development of smart and sustainable logistics, shifting mobility patterns, and achieving transport decarbonization goals.

We kindly ask you to mark this event in your 2026 calendar and to join us at the Conference.

Further details regarding the program and participation requirements will be provided in due course.

We look forward to seeing you in Szczecin in September 2026!

Yours faithfully

EURO-TRANS 2026 Steering Committee

Dr. hab. Monika Bąk, Professor at the University of Gdańsk

Dr. hab. Marzenna Cichosz, Professor at the SGH Warsaw School of Economics

Dr. hab. Bartosz Gucza, Professor at the SGH Warsaw School of Economics

Dr. hab. Tomasz Kwarcinski, Professor at the University of Szczecin – *Chairman*
