Important dates

Sending the abstract: 30 July, 2023
Sending the full paper: 30 July, 2023
Sending the registration form: 31 August, 2023
Conference fee payment: 22 September, 2023

Conference fee

- Conference fee for participant: €300 without VAT (possibility of discount for sponsors)
- Includes conference materials, publication of an article in the indexed proceedings of the Elsevier publishing house, lunch, a gala dinner, refreshments during the conference, and organizational costs
- Accommodation is reserved at the venue of the conference (Hotel Permon, Podbanské), but the participant orders and pays for the accommodation himself; a discount is agreed for conference participants (double room at the price of €75 per night per person, single room at €120 per night per person)

Payment the conference fee

International Scientific Conference

Horizons of Railway Transport 2023

"Determinants of the development of the railway system in the context of the society-wide assessment of investments in railway infrastructure and public passenger transport"

which will be held on
02—03 October 2023
in the Permon**** hotel
Podbanské (High Tatra), Slovak Republic
Conference goal

The goal of the twelfth year of the international scientific conference is to support innovative theoretical and practical knowledge in two areas: economics, management, and marketing, as well as operational-technological issues of securing traffic and transport processes in the railway system. The thematic focus emphasizes the determinants of the development of the railway system in the context of evaluating investments in railway infrastructure and public passenger transport from a societal point of view. The issue of creating a unified, interoperable, and harmonized European railway area within the EU is key to strengthening the absorption capacity of incremental transport flows in freight and passenger transport within the framework of strengthening rail transport as an environmentally friendly mode of transport. The conference follows on from previous years and, at the same time, creates a platform for the exchange of knowledge from the implementation of the Recovery and Resilience Plan.

Conference Topics

1. Railway Infrastructure and Technology
   - Innovative trends in the field of railway transport and infrastructure
   - Public passenger transport and integrated transport systems
   - Freight transport and intermodal transport
   - Logistics and circulation processes in transport
   - Information technologies in transport and optimization of transport and transport processes

2. Management and Marketing in Railway Transport
   - Transport policy and competency in transport
   - Management and marketing in Transport
   - Communication, human resources and education in Transport processes
   - Environmental and social aspects of railway transport and infrastructure

3. Project management in railway transport
   - Strategy in the railway sector
   - Evaluation of investments in railway transport
   - The Recovery and resilience plan as a tool to strengthen the competitiveness of rail transport

Conference Program

**Monday 02 October**

09:00  Registration of participants
10:00  Ceremonial opening and official statements
10:30  I. block plenary session—invited lectures
12:30  break for lunch
14:00  II. block plenary session
       Presentation of papers
16:30  III. Block-moderated discussion
       panel discussion and adaption of conclusions
19:00  Social evening

**Tuesday 03 October**

09:00  Excursion: Cog railway system in the High Tatras
12:00  Summarization and closing of the conference

Conference language: slovak, czech, english

Conference venue

Grand hotel Permon ****
Podbanské, Vysoké Tatry, Slovenská republika
